CRK

**BUILT
to WORK**

**4-YEAR GUARANTEE ON
FEET, SEMEN, & DISPOSITION**

**MAXIMIZE PROFIT.
MINIMIZE PROBLEMS.**

At River Creek Farms our breeding philosophy is driven by two goals: maximize your cowherd profits and minimize your problems. We build bulls that excel in calving ease, disposition and carcass quality. All while maximizing the benefits of hybrid vigor. It's a simple philosophy, but one that has worked for us and given River Creek the pleasure of marketing seedstock bulls for over 40 years.

I guarantee these bulls will work for you.

VOLUME DISCOUNTS

Purchases of 3 or more bulls qualify for a discount equal to the number of bulls bought, up to 10%. For example, buy 6 bulls and get a 6% discount.

DELIVERY

Free delivery to customers in Kansas and surrounding states. We guarantee your costs will not exceed \$300 per head, elsewhere in the United States.. **\$100 discount per bull if you haul your purchased bulls home sale day.**

HEALTH

Each bull has been vaccinated with IBR, BVD, P13, Vibro Letpo 5, 7-way Blackleg, poured with Ivomec and received a magnet. All bulls have been fertility checked. Actual scrotal measurements for Fall and Spring bulls are listed in the catalog.

EXTENDED CARE

River Creek Farms will take the bulls home and continue to develop them until April 1, free of charge.

RETAINED SEMEN INTEREST

River Creek Farms will retain 1/3 semen interest on all bulls in the offering, unless otherwise noted.

ABOUT RIVER CREEK

River Creek Farms leads the state of Kansas in annual registrations of Simmental and SimAngus cattle.

Our herd sire lineup is anchored by some of the most progressive sires in the breed. With a majority being actively marketed by studs nationwide. Herd sires include: TJ Gold (ABS), LCDR Progressive (Select Sires), CCR Payweight (Select Sires), W/C Rapid Fire (Select Sires), Gibbs Broad Range (Select Sires), MCM Top Grade (Genex), RC Xceed, TJ Chief, and KBHR Revolution.

For five generations, we've managed our cowherd like a business, not a hobby. We've always placed our focus on breeding profitable genetics that can survive and thrive on our native grasses. We cull relentlessly. Our customers have come to expect the highest quality calves to come from our premium selection of herd sires and cows.

River Creek Farms is owned and operated by Joe and Bob Mertz, along with their wives Kim and Mary. In 2022, after many years working behind the scene, Joe and Kim's son Abram and his wife, Dani, will officially join the family business. ■

BUILT TO WORK

At the foundation of our **breeding program** is the singular belief that every bull we sell should produce a **positive ROI** for our buyers.

Left: SimAngus cows grazing on summer grass just south of the River Creek Farms headquarters.

Above: Joe and Abram review a bull prior to the sale.

Longevity matters. River Creek bulls are bred, developed, and handled to insure the longest, most productive life possible.

DEVELOPMENT

We target the post-weaning growth phase to extend each bull's skeleton and develop sound feet by running them on grass with limited resources. This results in young bull calves who possess the skeletal strength and athleticism to responsibly add muscle and pounds while on test. And long term, it builds a mature bull calibrated to breed cows for many years to come.

HYBRID VIGOR

The bulls we sell are hybrids for a reason, they last longer. Crossbreeding contributes to a reduction in hoof problems, structural problems, and fertility issues commonly experienced with purebred Angus bulls - resulting in SimAngus bulls with increased life spans that generate a higher return on investment for our buyers.

DISPOSITION

When it comes to raising cattle, we keep getting older, but they stay the same age. We don't have the time or energy to deal with crazy cattle. It's dangerous and unnecessary. That's why we deploy a low stress handling system, resulting in bulls that are familiar with humans and used to being handled easily in close quarters.

NO EXCUSES

Our experience selling bulls across the United States has given us respect for the unique environments each bull must operate in. We expect every bull we sell to work in any environment, no excuses. That is why we guarantee every bull we sell for four years. ■

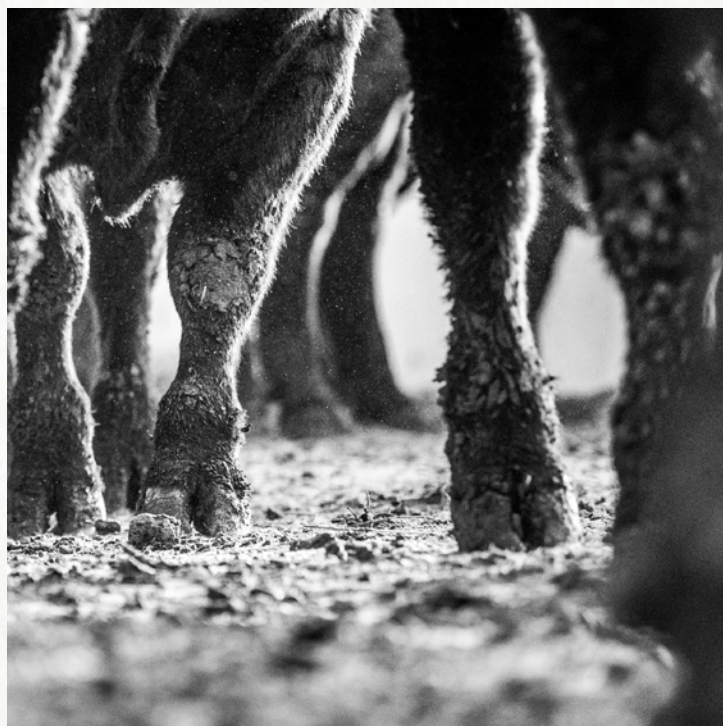

4-YEAR GUARANTEE

ON FEET, SEMEN & DISPOSITION

We're committed to making sure your investment in River Creek genetics produces a positive economic return.

We believe that trust and transparency are the pillars of any successful business relationship. While we do everything in our control to develop young herd sires that are built to work - it's possible a bull may still fail to breed cows for a variety of reasons post sale. If this happens, we want to be as transparent as possible in how we will handle the situation.

We guarantee every bull sold will work for four years/ breeding seasons. Should a problem arise, credit will be issued equal to the bull's Net Breeding Value minus the salvage price you receive locally. ■

"The best part of River Creek bulls is the people behind them. They have a good guarantee and they stand behind their cattle completely. Great people to do business with. I've spent a lot of time on the phone with Joe, and he's been helpful in identifying the bulls that have been a real asset to my program."

TOP DOLLAR ANGUS THE MARK OF CARCASS QUALITY

Top Dollar Angus is the first and only certification program for commercial feeder cattle focused exclusively on Angus and Red Angus-based cattle with **top 25% growth and carcass traits**. River Creek Farms relationship with Top Dollar Angus rewards our buyers who focus on producing profitable cattle. Top Dollar works with cattle buyers and feedlots looking to purchase and feed high-value feeder calves.

We are offering **100 Top Dollar Angus qualified SimAngus bulls**. Each bull represents an exclusive opportunity to purchase SimGenetics that possess the Marbling genetics to qualify for premium Angus-based feeder programs, while taking advantage of natural growth benefits associated with hybrid vigor. ■

"As I travel and meet with our Top Dollar Angus Feeding partners, feedlot managers consistently say that, for success, they need cattle they KNOW can stay healthy, grow quickly, efficiently, and achieve the carcass traits to reach a high-quality grade.

River Creek Farms has focused on these same traits with hybrid genetics for use on Angus and Red Angus-based females and built them to meet the industry demand."

Nate Smith
General Manager
Top Dollar Angus

COMMITTED TO CALVING EASE

River Creek cows are expected to calve unassisted, rebreed on grass without grain and wean a calf. Cows that fail to meet our strict standards are culled from the herd. Bulls in the catalog are ranked based on their genotype, using the star rating system to the right. ■

Use on any British or Continental heifers, and young or mature cows.

Use on bigger framed heifers, young cows, and mature cows.

Use on young or mature cows.

Use on mature cows only.

"We have been buying bulls from River Creek Farms for 25+ years. The bulls are always ready to work when you get them. They are always gentle and birth weights are moderate. Our weaning weights have increased dramatically and our heifers are in demand. We have the best looking cow herd that we have ever had by keeping heifers out of Joe's bulls.
